THE NEW SEMINARY.

What Four Wide-Awake Energetic Ladies Have Done.

BISHOP WELLS' SCHOOL.

A New Seminary for Girls Inaugurated. The Teachers Have Been Secured.

Last winter when the question of establishing a ladies' seminary in Janesville was brought before the Business Men's Association, considerable enthusiasm manifested itself on the part of many ladies who had daughters to educate, and those who were interested in education and the prosperity of our city.

The business men also gave the subject a good deal of consideration. More or less corresponding was done; a lady from Chicago came here with a proposition of some kind; it was considered, and the subject talked about by many for a long time. But nothing definite was done.

There are four ladies in our city who have taken this matter more to heart than our business men did. For some time these ladies have been talking the matter over, and they have finally concluded that it should be done at once; and these ladies have inaugurated a Young Ladies' Seminary.

Mrs. F. F. Stevens is the lady who has the honor of starting the movement. The other ladies are Mrs. Pliny Norcross, Mrs. H. D. McKinney and Mrs. Charles W. Hudson. Rev. H. Baldwin Dean is also connected with the enterprise and will be the rector and superintendent of the school.

The ladies have secured for the principal of the school Miss Louise C. Graton, of New York city, a lady with the highest recommendations, who received her education abroad. Miss Graton is one of the ablest teachers of German, French and free hand drawing in this country and also a lady possessing great executive ability. She leaves a lucrative position in the east for the sake of coming to Janesville with the view of making a permanent home here in connection with the seminary.

Miss DeLoe Howard, formerly first assistant in our city schools, has accepted the position of secretary and treasurer of the seminary, also that of teacher of English, Latin, mathematics and some of the sciences. Miss Howard gives up other remunerative work for the sake of taking hold of this new enterprise.

The seminary has been named "Bishop Wells' school." There has been for some time an urgent call for a school of this kind. A good many of the girls are unable to stand the tiresome routine of the public schools, and it will be a general opportunity for their parents to have a school of this description to send them to.

The course of study laid out will be a higher and more complete one than that of Rockford seminary, because more attention will be paid to German and French and free hand drawing here than at Rockford or many other schools of its kind in the west.

Tuition has been placed at the low price of \$80 per year, \$90 per year less than the amount proposed last winter.

The ladies did not start out until last evening soliciting students. They have been most cordially received by everybody. Already eighteen scholars have been secured, five of them coming from Waupun.

Too much cannot be said in praise of the ladies who have taken this enterprise in hand. They have assumed all responsibility of the institution financially and otherwise. They have done all the soliciting, corresponding and planning from the beginning. They have taken great pains and incurred expense in securing competent teachers.

This institution is very likely to become an important factor in the growth of this city. Many institutions of its kind have had smaller beginnings than this, whose influence is now felt throughout our whole land. It will induce many people to move here to educate their daughters.

The seminary will be centrally located and easy of access from all parts of the city. A class of girls as young as eleven years of age, will be organized. It is intended to have the school hours the same as in many of our large cities, one session a day, occupying probably the greater part of the forenoon, as many girls and young ladies are not able to attend an all day session, or two sessions each day as we have in our public schools; and it has been demonstrated that much and as good work, if not better, can be accomplished by the plan of one session a day.

The money received for tuition will be used to pay the salaries of the teachers, and the remainder will all be used in building up the school.

The establishment of this seminary is not a money making scheme. It is simply an effort on the part of four of our enterprising ladies to provide a school for the girls of Janesville and of the state where they can obtain an education second to none in the northwest, and where they will be under christian influences, and enjoy almost all the privileges of their homes.

It has been clearly demonstrated by these ladies that "When she says she will, she will, and you may depend on it."

A circular giving a detailed account of the school will be published in a few days. The Gazette with many others wishes this enterprise much success, and it will have without a doubt.

THE WEATHER.

At seven o'clock this morning the thermometer indicated 75 degrees above zero. Clear with light wind.

At one o'clock p. m. the register was 93 degrees above zero. Partly cloudy with south wind.

For the corresponding hours one year ago the register was 70 and 91 degrees above zero.

CHICAGO, Milwaukee & St. Paul.

The Chicago, Milwaukee & St. Paul Ry. Co. will sell excursion tickets on July 3d and 4th, good to return until July 6th, for first class fare for the round trip.

THE CITY GOVERNMENT.

Regular Meeting of the Common Council Last Evening.

A FEW AWWINGS TO REMAIN

Considerable Important Business Considered—The Oil Lamp Contract.

Mr. President Norris presided at the regular meeting of the common council last evening, all the aldermen answering to their names except Ald. Hanthorn.

The journal of the last meeting was read and approved.

Several bills against the various funds were referred to the finance committee.

The June report of the board of education, showing expenditures for the month amounting to \$3,253.41, was presented, referred to the committee on schools, found correct, ordered placed on file and published.

City Clerk Bates read the following, which was referred to the fire and water committee, and subsequently reported back by that committee and placed on file:

JANESVILLE, Wis., June 24, 1889. City Clerk City of Janesville:

This is to certify that the following hydrants have been set as ordered by the city council as follows: From Hyatt street on Milton avenue, north 1200 feet, two hydrants; South Main street south 1000 feet, two hydrants; Sharon street one hydrant, built by the fire and water board; Court street from Jackson east 1200 feet, three hydrants; Park avenue south 800 feet, two hydrants; Washington avenue 400 feet, one hydrant. Total amount of pipe laid, 5,600 feet; number of hydrants set 13.

Yours respectfully, J. C. HOWE, Superintendent.

The clerk read the application of Carl Hanson asking permission to transfer his saloon and license from 153 West Milwaukee street to 118 West Milwaukee street. Referred to committee on license and subsequently granted.

Ald. Conrad, of the finance committee, reported in favor of allowing sundry bills against the several funds which were concurred in.

Ald. Baker, of the judiciary committee, reported in the matter of bids for caring for the street oil lamps. Only two of the bidders had complied with the order requiring a bond to accompany the bids, Mr. Rooney and Mr. Stoddard, and these bidders were a tie, the committee, therefore, asked the council to decide to whom should be awarded the contract.

Ald. Conrad moved that the council proceed to ballot to determine the question. Adopted.

The chair appointed Ald. Hanthorn and Rowe as tellers.

The whole number of votes cast was nine, of which J. S. Rooney received 8 and W. B. Stoddard, 1.

On motion of Ald. Horn the contract was awarded to J. S. Rooney.

Ald. McLean, of the committee on fire and water, made a statement regarding the leasing of the No. 1 steam fire engine to the village of Brookfield, the rental being \$50 per month for two months, the village having an option to purchase the engine at the expiration of that time for \$1,500; if not purchased the engine was to be returned in as good condition as when received. The engine was taken to Brookfield in charge of himself and Chief Engineer Blank, where it was given a satisfactory trial. Mr. A. W. Bauman accompanying as engineer. Ald. McLean stated that this action was taken principally upon an order adopted by the old council, authorizing the sale of the steamers, but since the return from Brookfield he had heard considerable objection to the sale of any of the engines.

On motion of Ald. Jackson the action of the committee as reported was approved.

Ald. Horn, of the gas committee, stated that all the oil lamps except four in the fifth ward, and five in the first ward, were now ready to be lighted.

Ald. McLean, for a gas lamp at the northwest corner of High and Pleasant streets. Referred to the gas committee.

Ald. Jackson, providing for drawing two orders on the highway, street and bridge fund in favor of Messrs. Carpenter & Ryan, for work on bridges, one order for \$40 and the other for \$60, provided that the payments be not considered as an acceptance of the work as completed according to the specifications. The order was adopted.

Mr. Ryan was allowed to make a statement concerning Court street bridge. He said he would like to know where the work had not been completed according to contract. Ald. Jackson stated that tar had not been poured on the blocks as required.

Mr. Ryan replied by saying that he had taken the chairman of the committee, Ald. Thoroughgood, to the bridge and had him thoroughly examine it. While Ald. Thoroughgood stated that he had no authority to accept the bridge he had been doing according to the contract. Mr. Ryan stated that if the bridge had not been accepted, he would like to know it so as to close it up, as he did not want it used by the public for an indefinite time before action was taken.

All the aldermen expressed themselves as well satisfied with the progress made in repairing the railway crossings. Ald. McLean stated that the fifth ward crossings were much better than he had anticipated, and no fault could be found. Ald. Rowe, in alluding to the work of the Northwestern company, was equally loud in the praise; he said the St. Paul company were a little slow in putting down their crossings, but he was assured by Agent Johnson that as soon as some switch repairing was completed in Beloit the crew would be here and complete the work in a thorough manner.

Ald. McLean, of the special committee appointed to secure the services of a competent city engineer, reported that they had received several letters from parties, two from the normal school at Valparaiso, Indiana, giving Mr. Otto Bleedorn a good recommendation. The committee had also received a proposition from Mr. Frank Dobson, of Milwaukee, who would come to Janesville and attend to engineering work when desired. A long discussion followed, and resulted finally in the election of Mr. Otto Bleedorn as city engineer.

Ald. Conrad, providing for a block across Jackson street on the north side of Court street, and a Court street on the east side of Jackson street. Adopted.

Ald. McLean moved that the council proceed to the election of a supervisor for the fifth ward. T. M. Lynch deceased. Ald. McLean put forward the name of Mr. E. J. Rathern, stating that politics had nothing to do with the election of a supervisor, and many people of the fifth ward as well as others would be pleased to see Mr. Rathern in the board.

On motion of Ald. Conrad the city clerk was instructed to cast the ballot for the council for Ed. Rathern for supervisor for the fifth ward. The clerk cast the ballot and Mr. Rathern was declared duly elected.

Ald. Conrad asked that permission be granted Mr. E. L. James to allow his awning to remain on Court street. He thought that the intent of the ordinance was not to interfere with the awnings only on Milwaukee and Main streets, and not on the byways.

Ald. Horn was not very well posted about the streets in the third ward, but had always thought Court street one of the handsomest streets in
